

Size of Planets questions:

This is for ALL of the 8 planets. Planets ONLY!

1. What planet was the largest size
2. What planet is the smallest size
3. Which planet is called Earth's twin because it is almost the same size as Earth?
4. Did anything surprise you about this?
5. Why do you think the Gas Giants have so much space between them and the inner planets are spaced out close together?
